Dear Parent,

Whether for hockey or recreational skating, we put our children on the ice with the best safety equipment on the market. Many young hockey players are not always prepared for the pressures of trying to learn both skating and hockey skills at the same time.

Give them a head start with us.

The Woodbine Winter Club has been offering young skaters the opportunity to learn the basic skating skills for over 21 years. Once the child has learned to skate, they then can concentrate on learning hockey skills quicker.

Many of the young skaters who have taken our programs have gone on to be successful in competitive figure skating and all levels of hockey. If your child is enjoying their introduction through your local school, then why not continue where they started.

Canskate is a "Learn To Skate" program designed by Skate Canada and taught by NCCP certified Professional coaches. The program is divided into seven stages with each stage teaching various skating disciplines. All efforts are maintained to keep the Student to Instructor ratio at 6 to 1
